Evaluate Your Sources Using Our Google Form

Evaluating Print and Digital Resources

So far in your state's research project, you have used both print (books) and digital (websites) to find factual information about your state. Let's use the TRAAP method discussed in the video to compare and evaluate these resources. Which is better for what job - and why? Think carefully about the following questions and submit your form when you are done. You might have to refer back to your books or websites to answer your questions.

* Required

TIMELINESS - Which resource, print or digital, had the most up-to-date information? Check for publication or copyright dates on your sources. *

Print

Your Mission

1. Go to our Google Classroom and complete the Greetings Day 4 assignment
2. Check out books and/or read/go to a center
